

Grand Theft Auto V

- a. Look at the following text. Read it to yourself and when you feel happy that you know how to say the words read it aloud:

Set within the fictional state of San Andreas, Southern California, the 2013 action-adventure game follows retired bank robber Michael De Santa, street gangster Franklin Clinton, and drug dealer and arms smuggler Trevor Philip and their efforts to commit crimes while under pressure from a corrupt government agency and powerful crime figures.

The game is played from either a third-person or first-person perspective, and its world is navigated on foot or by vehicle. Players control the three lead protagonists throughout single-player and switch between them. The story is centred on the heist sequences, and many missions involve shooting and driving gameplay. A "wanted" system governs the aggression of law enforcement response to players who commit crimes.

The game broke industry sales records and became the fastest-selling entertainment product in history, earning \$800 million in its first day and \$1 billion in its first three days. It received widespread critical acclaim, with praise directed at its multiple protagonist design, open world, presentation and gameplay. However, there is controversy related to its depiction of violence and women. Considered one of seventh and eighth generation console gaming's most significant titles and among the best video games ever made, it has won many prizes. It is the second best-selling video game of all time with sales of over 135 million copies and is one of the most financially successful entertainment products of all time, with about \$6 billion in worldwide revenue.
