

Pronouns

Personal Pronouns		Possessive Adjectives and Pronouns – both show possession. The key is the position		Reflexive Pronouns
subject form	object form	possessive adjective	possessive pronoun	
Person or thing that is doing the action. The subject pronoun replaces this person or thing.	Often used as the thing the verb is doing.	Changes the word following it to show a connection / possession.	Shows that something belongs to someone but used in a different position, i.e. before.	Used when the subject and object are the same.
