

Taboo!

a. Game setup:

Players are divided up into two teams, with one team referred to as Team A and the other team referred to as Team B.

One person from Team A takes a card and places the first card away from his team so that they can't see it. Clue cards have the clue word on the top of the card and the taboo words listed below the clue word. Clue-givers then start explaining the word to get their team to say the guess-word on the card without using one of the taboo words in one of their clues.

If a taboo word is used then Team B must sound the buzzer which penalizes Team A by causing the current guess card to go into the discard pile.

Play is continued until time runs out. Each time a teammate successfully guesses a clue-word, a new card is placed upon the old and each card in this pile represents one point for Team A.

b. Gameplay and Scoring:

The team not giving clues must watch for Taboos or other violations of the rules. If they successfully spot a rule being broken, they may interrupt play and very briefly explain the infraction. Clue-givers must place the current card into the discard pile and draw a new one. Each card in the discard pile represents one point for the other team.

Once time runs out, the teams are swapped and roles are reversed. Once each player has taken a turn as clue-giver, the game ends. If teams are uneven, a player on the smaller team will be clue-giver twice.
